§ 11.73 How does FAA process petitions for rulemaking?

After we have determined the disposition of your petition, we will contact you in writing about our decision. The FAA may respond to your petition for rulemaking in one of the following ways:

(a) If we determine that your petition justifies our taking the action you suggest, we may issue an NPRM or ANPRM. We will do so no later than 6 months after the date we receive your petition. In making our decision, we consider:

(1) The immediacy of the safety or security concerns you raise;

(2) The priority of other issues the FAA must deal with; and

(3) The resources we have available to address these issues.

(b) If we have issued an ANPRM or NPRM on the subject matter of your petition, we will consider your arguments for a rule change as a comment in connection with the rulemaking proceeding. We will not treat your petition as a separate action.

(c) If we have begun a rulemaking project in the subject area of your petition, we will consider your comments and arguments for a rule change as part of that project. We will not treat your petition as a separate action.

(d) If we have tasked ARAC to study the general subject area of your petition, we will ask ARAC to review and evaluate your proposed action. We will not treat your petition as a separate action.

(e) If we determine that the issues you identify in your petition may have merit, but do not address an immediate safety concern or cannot be addressed because of other priorities and resource constraints, we may dismiss your petition. Your comments and arguments for a rule change will be placed in a database, which we will examine when we consider future rulemaking.

§ 11.75 Does FAA invite public comment on petitions for rulemaking?

Generally, FAA does not invite public comment on petitions for rulemaking.

§ 11.77 Is there any additional information I must include in my petition for designating airspace?

In petitions asking FAA to establish, amend, or repeal a designation of airspace, including special use airspace, you must include all the information specified by § 11.71 and also:

(a) The location and a description of the airspace you want assigned or designated;

(b) A complete description of the activity or use to be made of that airspace, including a detailed description of the type, volume, duration, time, and place of the operations to be conducted in the area;

(c) A description of the air navigation, air traffic control, surveillance, and communication facilities available and to be provided if we grant the designation; and

(d) The name and location of the agency, office, facility, or person who would have authority to permit the use of the airspace when it was not in use for the purpose to which you want it assigned.

§ 11.81 What information must I include in my petition for an exemption?

You must include the following information in your petition for an exemption and submit it to FAA as soon as you know you need an exemption.

to that provided by the rule from which you seek the exemption;

(f) A summary we can publish in the FEDERAL REGISTER, stating:

(1) The rule from which you seek the exemption; and

(2) A brief description of the nature of the exemption you seek;

(g) Any additional information, views or arguments available to support your request; and

(h) If you want to exercise the privileges of your exemption outside the United States, the reason why you need to do so.

§ 11.83 How can I operate under an exemption outside the United States?

If you want to be able to operate under your exemption outside the United States, you must request this when you petition for relief and give us the reason for this use. If you do not provide your reason or we determine that it does not justify this relief, we will limit your exemption to use within the United States. Before we extend your exemption for use outside the United States, we will verify that the exemption would be in compliance with the Standards of the International Civil Aviation Organization (ICAO). If it would not, but we still believe it would be in the public interest to allow you to do so, we will file a difference with ICAO. However, a foreign country still may not allow you to operate in that country without meeting the ICAO standard.

§ 11.87 Are there circumstances in which FAA may decide not to publish a summary of my petition for exemption?

(a) Whether granting your petition would set a precedent.

The FAA will notify you in writing about its decision on your petition. A copy of this decision is also placed in the public docket. We will include the docket number associated with your petition in our letter to you.
